IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

(PWS ID# 0920019)

Elderville WSC has violated the monitoring and reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Chapter 30, Section 290, Subchapter F. Even though these were not emergencies, as our customers, you have the right to know what happened and what we did to correct these situations

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During January 1, 2015 – December 31, 2017 we did not complete all monitoring for lead and copper and therefore cannot be sure of the quality of your drinking water during that time.

The table below lists the contaminants we did not properly test for during the specified time frame, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which the follow-up samples

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples were or will be taken
Lead and Copper tap water sampling	20 routine samples/ 3 years	2	Jan 1, 2015 – Dec 31, 2017	Sept 1, 2018

What is being done?

We are working to correct the problem. For more information, you may contact Elderville Water Service Dept. at (903) 212-0288 or visit our website at: www.eldervillewsc.com.

We did uphold the 20 samples sites and all passed, lab results on file, but the sample sites were not at the time “approved” sites per the TCEQ. Currently samples sites have now been approved for our routine monitoring.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Thank you!
